IPSI d.o.o. in collaboration with Maxeler Technologies, London, UK

Full Stack Web Developer

Belgrade, Serbia

(*4 month paid internship with possibility of full time employment*)

We are seeking for skilled and enthusiastic people to join our team.

Maxeler Technologies is developing highly customised solutions for our clients based on our Multiscale Dataflow Computing Technology. For that purpose we need to develop UIs for internal and external demonstrations as well as for production systems, making access and control of these complicated systems easy.

Candidates should have the following skills:

- Strong communication skills

- Experience in web development and web development technologies

Additionally, experience in the following would be advantageous:

- Experience in user interface and user experience design

- Basic programming knowledge in C/C++ or Java

To apply, please email your CV and cover letter to hiring.belgrade@maxeler.com with the following subject: *Job Application for <Position>, <Full Name>.*
